

Frederica Academy Network and Internet Acceptable Use Policy 2021-2022

Term and Conditions

Please read this document carefully before signing and returning the attached.

In support of its academic mission, Frederica Academy encourages student access to its technology and information resources. This statement provides general guidelines regarding the acceptable use of technology and information resources by the administration, faculty, staff and students at Frederica Academy. Frederica Academy believes that internet access can be a powerful communication, learning and research tool. Consequently, the school provides internet access to its students throughout the campus, including wireless access for Chromebooks brought to school by students. While the school attempts to block access to undesirable or inappropriate internet sites, these efforts can be imperfect and such security cannot be assured. Additionally, the internet browsing of specific students may not always be monitored or policed. Parents are encouraged to talk with their children about parental expectations regarding web browsing and internet usage.

Google Apps for Education:

Frederica Academy uses Google Apps for Education in the classroom. Google Apps for Education is a suite of free, web-based programs that includes e-mail, document creation, shared calendars, and collaboration tools. This service is available through an agreement between Google and Frederica Academy.

These are the laws and policies that help to protect our students online:

Child Internet Protection Act (CIPA)

The School is required by CIPA to have technology measures and policies in place that protect students from harmful materials including those that are obscene and pornographic. This means that student e-mail is filtered. Mail containing harmful content from inappropriate sites will be blocked.

Children's Online Privacy Protection Act (COPPA)

COPPA applies to commercial companies and limits their ability to collect personal information from children under 13. By default, Google advertising is turned off for Apps for Education users. No personal student information is collected for commercial purposes. This permission form allows the School to act as an agent for parents in the collection of information within school context. The School's use of student information is solely for educational purposes.

Vandalism is defined as any malicious attempt to harm or destroy data of another user, Internet or other networks that are connected to the Internet or the Frederica Academy Network.
